FRANCE TO BUILD UP HER AIR FORCE IN REORGANIZATION

War Minister's Purpose Includes Reduction in Infantry and Cavalry Units.

PARIS, June 14.—The reorganization of the whole French army on a peace footing is at present being contemplated by Minister of War Barthou. He is also elaborating a scheme whereby the peace army could rapidly be transformed in time of war.

Important modifications are to be made. There will be a marked diminution of infantry and cavalry units and an increase in the air force. Less colonial troops are to be stationed in France, though in time of war they will be brought over. Certain elements from North Africa, however, will continue to receive instruction in France. The artillery strength of the French army is also to be increased considerably.

According to the new project there will be 139 regiments of infantry instead of 173 as on the first of January, 1912, sixty-seven regiments of cavalry instead of eighty-nine, 101 artillery regiments instead of seventy-five, fifteen regiments of en-

gineers instead of seven, sixty air observation squadrons instead of ten, 140 fighting escadrilles as against ten, and twenty-six airship or captive balloon companies instead of four.

These figures represent the following number of men:

Infantry	287,480
Cavalry	50,000
Artillery	104,459
Engineers	31,775
Air Service	32,081
Medical Supply and Trans.	46,225

To these numbers must be added a colonial army of 40,000 and 100,000 regular army men. The bill also calls for the creation of special instruction schools. The army reserve is made up of classes liberated once their term of military service is completed and these are not included in the above figures.

"RED" SCHOOLS TEACH POLITICAL ECONOMY

Graduates will be appointed professors of political economy and materialistic history.

LAFAYETTE SOUVENIRS FOR PARIS MUSEUM

PARIS, June 14.—President Millerand, in the presence of Hugh C. Wallace, the American ambassador; M. Guisheau, minister of marine, and General Mallette at the Army Museum in the Invalides, accepted a gift of furniture and other souvenirs of Lafayette presented by Leonard Rosenthal, a Paris merchant. The articles came originally from the Chateau de Chavignac in Auvergne, where Lafayette was born.

War Relic in Scalp.

WICHITA, Kan., June 14.—George R. Clark, traffic policeman, has a new souvenir of the war which wasn't brought overseas in a truck or rib-bag. It is a piece of shrapnel the size of a small bullet which recently was removed by a surgeon from Clark's scalp. The piece of metal found a home in Clark's anatomy two years ago during the Argentine battle. He suffered a number of other wounds at the time.

65 GRADE PUPILS GIVEN DIPLOMAS AT HYATTSVILLE

Walter Tyler Page, Author of American Creed, Makes Address to Young Graduates.

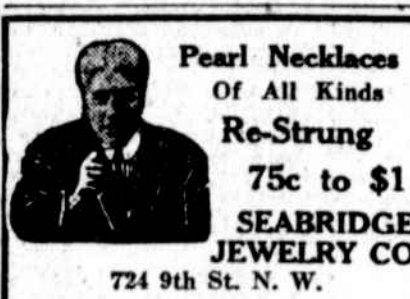

HYATTSVILLE, Md., June 14.—Sixty-five graduates of the Hyattsville Elementary School received diplomas last night at the commencement exercises, held in Company F Armory. The children will enter the junior high school.

The address and presentation of diplomas was made by Walter Tyler Page, author of the American Creed. Charles W. Clagett presided. The invocation was by the Rev. J. H. Strong and benediction was pronounced by the Rev. Louis P. Chastain.

The speakers were introduced by H. Winslow Wheatley, Jr., and the welcome was delivered by Margaretta West. The class history was recited by Virginia Sturgis, and the closing speech was by Walter Richards.

The musical part of the program was exceptionally good. The class sang Emmett's "Lullaby" and a medley of old songs. Piano selections were given by Elizabeth Hollingsworth and Frances Hoopes. Ardley Hart and Robert Baber played a violin and mandolin duet.

The quotation, "Three things a man is most likely to be cheated in—a home, a wife and a wife," is from Poor Richard's almanac.
